Extensive experience in the Charter market in general and broad knowledge and expertise in laytime analysis, specifically. I advise and assist on Contract and Clause design to optimize and mitigate laytime risk.

I manage a substantial amount of laytime calculations and disputes, on a daily basis. I offer bespoke consultancy to industry stakeholders on a variety of matters across the complete Chartering and Operations business process.

I regularly advise and assist on the commercial resolution of laytime disputes.

I lecture Laytime, Demurrage and Operations at the Cambridge Academy of Transport and I am a frequent speaker on the subject at a number of Universities, Institutes and fora.
